

Production Planning System

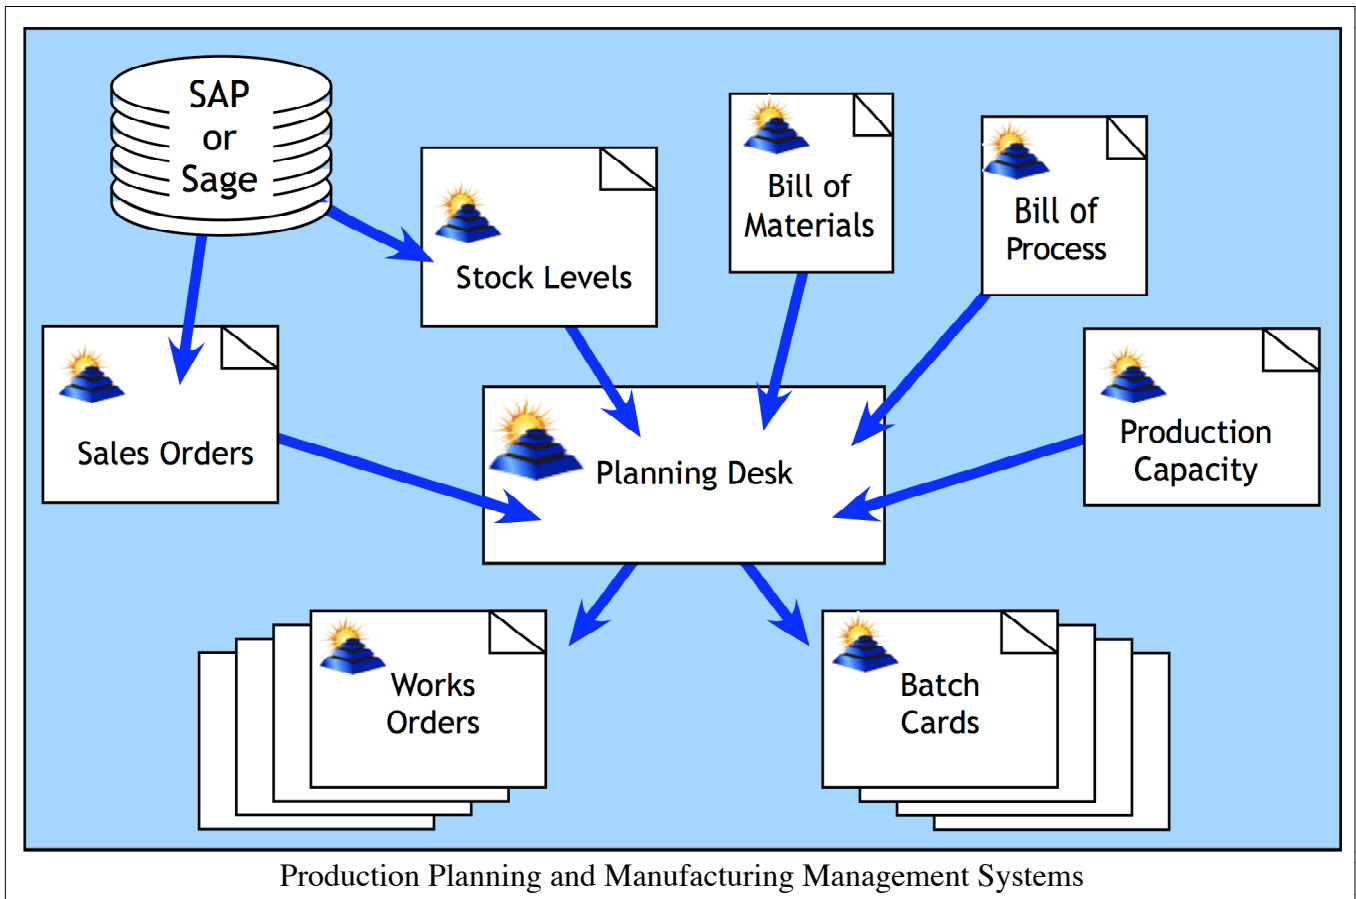

The Challenge

Businesses of all sizes experience growing pains.
Azteck has worked with them all: £500k to £25M turnover.

“We have special requirements & our requirements continuously improve; – we can not afford to be shackled by off-the-shelf systems.”

Azteck’s Role

Azteck specialises in task automation, information collection and delivery throughout the business.

Benefits

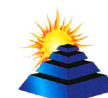

- Δ Fully integrated with Sales Ledger (running on SAP), Stock Management (including Bill of Materials and Bill of Process), Capacity Planning and the Quality System (all created by Azteck); the Product Planning system, at a single click, schedules the production, creating the Works Orders and Batch Cards to reflect the latest approved production techniques.
- Δ Analysis & Reporting across the business now available at a mouse click.
- Δ Product repeatability (Quality), Productivity and Data accuracy increased dramatically.

Queen’s Award for Enterprise

The client is now the world’s leader and based on the new efficiencies is driving Production Costs down and Efficiencies up.

We gratefully acknowledge our client’s assistance in preparing this case study.
